

PROGRAM OVERVIEW

Pollinator Habitat Education Program

Sand County Foundation's Pollinator Habitat Education Program gives students hands-on experience growing and planting native wildflowers, restoring critical habitat while building practical conservation skills and a genuine connection to the natural world.

We offer two opportunities: the **Seed Starter Activity**, a beginner-friendly entry point for grades K-12, and the **Pollinator Habitat Grant**, a more in-depth opportunity for high schools ready to design and maintain a larger native habitat site.

	Seed Starter Activity (Grades K-12)	Pollinator Habitat Grant (Grades 9-12)
When to Apply:	Non-competitive: Apply between September-December 2026	Competitive: Apply by May 2026
Project Timeline:	December 2026-June 2027	June 2026-June 2027
